

It will be well to Remember that the Review is the only Paper receiving and publishing Associated Press Dispatches. These are received Every Night, hence authentic war news makes the Review valuable as an Advertising Medium

JAMES R. GARFIELD.

Son of the late President, is rapidly attaining recognition as the President's closest personal friend. He occupies the position of Commissioner of Corporations in the newly organized Department of Commerce and Labor, and is constantly consulted by the President, particularly on questions of political policy.

## COAL MINERS ARE ON A STRIKE

300 MEN WALK OUT AT BERWIND AND HASTINGS, CRIPPLING THE MINES

### PAY CHECKS SHORT

Executive of the United Mine Workers Hearing Discussion on Strike Situation in District 15 — Decision on Strike Will Be Reached Today

Indianapolis, April 23.—Treasurer Wm. B. Wilson of the United Mine Workers said tonight that the National Executive had heard the discussion of the strike situation in District 15 (Colorado, Wyoming, Utah and New Mexico). The discussion will be continued until tomorrow when it is thought that a decision as to the advisability of discontinuing or prolonging the strike will be reached.

### Non-Union Men Strike.

Denver, April 23.—A News special from Trinidad, Colo., says that operations at the mines at Berwind and Hastings, two of the largest coal producing sections of Colorado, have been seriously crippled by the action of about 300 non-union men in quitting work today. The men were dissatisfied with the amount of their pay checks, the particular objection being the deductions made for articles furnished them by the coal companies.

Secretary Simmons, of District 15, of the United Mine Workers of America, has issued a warning to union men to beware of persons who are reported to be making an effort to have the strike settled "on any conditions." He says that only the strikers themselves and the National officers have the power to end the strike. He further declares that the outlook for a successful termination of the contest is brighter than ever before.

### BYRAN IS STILL TALKING.

He Does Not Like the Reorganization Nor the Platform

Duluth, Minn., April 23.—In an interview tonight on reorganization W. J. Bryan said: "I do not think they are gaining any strength. The papers attesting to the growth of the reorganization are edited by reorganizers and Republicans."

"I have been quoted on the platform, and I will say that wherever its principles nearly approach clearness they are on the wrong side. It surpasses any platform I ever read in its attempt to conceal the purposes of those who wrote it."

When a woman loses her temper she finds her voice.

## Libel Suit Against the Bisbee Miner

MISS MAGGIE RODGERS IS BRINGING SUIT FOR \$10,000 DAMAGES AND COSTS.

Attorney Sutter, of Bisbee, filed the Complaint, which is based on an Article That Appeared in the Miner of March 30, Stating That Miss Rodgers Robbed a Man in Los Angeles.

(Special to Review.) Tombstone, April 23.—Suit was filed in the District Court by Attorney Sutter of Bisbee, for his client, Miss Maggie Rodgers, against the Bisbee Daily Miner, E. G. Ord, J. G. Pritchard, S. W. Clawson, Frank De Sousa, J. E. Hood, John Doe and Richard Roe doing business under the name of the Bisbee Daily Miner, for slander, and suing for damages to the extent of \$10,000.

The action is based on the publication of an article in the Miner of March 30, which stated that the defendant was arrested in Los Angeles for robbing a man named Peterson. The article is copied in full in the complaint. The complaint further alleges that the defendant, who is 25 years of age, has had her chances of marriage greatly impaired and injured by the publication of the article and also that she makes her living by sewing, and that her chances of making a livelihood by that means has also been diminished by the publication of the alleged article. Besides asking for the damages, she asks for costs of suit.

### INVESTIGATION OF COAL ROADS.

Inter-State Commission to Look into the Rates Charged by the Pennsylvania Roads.

Washington, April 23.—In the anthracite coal rate inquiry, based on the complaint of Wm. R. Hearst, of New York, against the Philadelphia and Railway company and other carriers of coal from the Pennsylvania mines to New York and other points, the Inter-State Commerce Commission today entered an order reopening the proceedings for further investigation and the submission of additional testimony on behalf of both sides.

### HAYWOOD IS OUT OF JAIL.

Guarded by a Deputy He Goes Back to His Headquarters.

Denver, April 23.—Secretary Haywood of the Western Federation of Miners, charged with desertion of the flag, was allowed to leave jail today in custody of a deputy sheriff, and take charge of the affairs at Federation headquarters in this city. He bears a few marks of his encounter with the militia.

Lying about your age won't prolong your life.

A wise man may profit by the actions of a fool.

## SAINT LOUIS EXPOSITION OPEN

GREATEST OF WORLD'S FAIRS TO OPEN TODAY—MEN WORKING ALL NIGHT WITH DESPERATE ENERGY.

### EXHIBITS ALL READY

Program of the Opening Exercises. City a Blaze of Glory in the Residence Portion—The Opening Exercises Will Be of a Serious Nature, Devoid of Glittering Pageant.

St. Louis, April 23.—St. Louis tonight is prepared for the greatest day in her history. Tomorrow at noon her exposition will be thrown open to the world. All of today and all of tonight the people have worked with a desperate energy to accomplish the thousand and one things that always remain to be done at the last moment. The work of arranging the exhibits and removing the scaffolds will continue until the dawn, and it is confidently expected that when the fair opens at noon tomorrow everything within human possibility will have been done to advance the work to the farthest limit of preparation.

In the downtown streets and residence district the decorations are exquisite and beautiful. The exercises of tomorrow will be more serious than beautiful. There will be comparatively little of the glittering pageant that marked the dedication exercises a year ago, but the ceremonies preceding the formal opening will be none the less interesting.

At 9 o'clock in the morning all the high dignitaries of the Exposition will meet at the administration building, and headed by a band will march to the Plaza of St. Louis, in the center of the exposition grounds.

The representatives of foreign governments will meet at the hall of congress at the same hour, and will time their parade to the plaza so as to arrive at the same moment as the exposition officials march in from the opposite directions.

At the same time the representatives of state and territorial governments will enter the plaza from a third avenue, having previously formed at the United States building. After the invocation, the keys of the building will be turned over by President Francis, who will transfer the buildings to the directors of the exhibits. Chorus of the "Hymn of the West" will then be sung, followed by the opening address of Mayor Wells, of St. Louis. The last speech of the day will be by Secretary Taft and at the conclusion a signal will be given. President Roosevelt in the White House, the golden key will be pressed, and the thousands of banners will be unfurled and the great Louisiana Purchase Exposition will be open to the world.

### GONE TO PARADISE.

From Tombstone to Paradise, Many Are Going to the New Camp.

(Special to Review.) Tombstone, April 23.—Eight miners were sent on this morning to the thirty-ninth where they will be put to work on the last properties recently headed by Tom Wright in the vicinity of Paradise.

Mart Moore has moved his transfer outfit to Paradise, where he will run a stake line between that place and Rodeo, using one of the old historic coaches that has been used on the Tombstone-Tombstone line for a number of years.

### CLERK IN NEW QUARTERS.

(Special to Review.)

Tombstone, April 23.—Clerk of the Court Wilcox is moving into the office recently occupied by the Board of Supervisors, and will be comfortably settled by the time of the convening of the June term of the District Court.

### LETTERS OF ADMINISTRATION.

(Special to Review.)

Tombstone, April 23.—Edward J. Hannigan, of Bisbee, has filed a petition in the Probate Court asking for letters of administration in the estate of Frank McEnany, deceased.

### NO DECISION GIVEN.

Baltimore, April 23.—Eddie Hanlon, of San Francisco, boxed ten rounds to a draw with Kid Sullivan of Washington, before the Eureka Club tonight.

Love is about the only thing that can divert cigar money into a savings bank.

Some men can find fault right along without spending a cent advertising for it.

## Mass Meeting Will Be Held

FOR THE PURPOSE OF ELECTING DELEGATES TO TOMBSTONE CONVENTION, MAY 1.

Meeting Will Be Held at Tammany Hall on Tuesday Evening, at 7:30 p. m.—Forty Delegates Will Be Elected and All Democrats of Bisbee Precinct Are Invited to Be Present and Participate.

The Democratic Central Committee for Bisbee Precinct held a meeting in the office of B. J. O'Reilly last evening for the purpose of deciding on a plan for the election of forty delegates to the County Convention, which will be held at Tombstone on May 14.

Besides the members of the committee other Democrats were present and participated in the meeting. After some discussion, participated in by Maj. Burton, James Letson and M. J. Cunningham, upon motion of James Letson it was voted unanimously that the Democrats of Bisbee select their delegates by a mass convention to be held in Tammany Hall on Tuesday evening next at 7:30 p. m. There was not a dissenting voice to this plan, and it was so ordered by the committee.

It was also ordered by the committee that through the columns of the Review a general invitation be extended to all Democrats in Bisbee to attend the convention.

The committee came to the conclusion that the mass meeting would be the most popular method, and objections were made to regular primaries on the ground that it would be expensive and inconvenient, owing to the short time that elapsed before the date set for the election of delegates, namely, May 3.

## Union Is Seeking Pardon For Delegate Sam Sparks

CENTRAL FEDERATED UNION INDORSES A PETITION TO GOV. ODELL.

New York City, N. Y., April 23.—It became known yesterday that a strong effort was being made to obtain a pardon for Sam Sparks, the convicted walking delegate, who is serving a sentence of four years and six months for extortion.

Delegates of the various labor organizations have been asked to sign a petition which is to be presented to Gov. Odell. Many have signed, but others refuse to do so. They hold Parks responsible for the building tie-up last summer, when 100,000 men were idle for six months at a loss of \$30,000,000 in wages.

The matter of Parks' pardon came up yesterday before the Central Federated Union, Walking Delegate Smith of the Plumbers' Union, asked that the application for pardon be indorsed. These reasons for clemency are presented in the petition:

"That the penalty imposed is intended to be corrective and not punitive. In view of the prisoner's extreme physical illness justice should be tempered with mercy, and we believe that the ends of justice have been fully carried out by the conviction of Samuel Parks."

"We further wish to respectfully call your attention to the fact that at the present time there is being made an earnest effort which we believe will be ultimately successful to bring about an era of peace between employers and employees in the building industry in the city of New York. This being the case, we believe that it is within your power to soften or forego any ill-feeling that may at present exist in the ranks of labor toward the employers by pardoning Samuel Parks. Despite any crime alleged against him, he has in the past been a loyal and earnest worker in the cause of organized labor."

Delegate Smith expects that every labor union will endorse the petition. He said that Parks was a sick man and could not live out his sentence. Chairman Oberwasser put the motion of signing the Parks application for pardon before the house and it was carried, but one delegate voting in the negative.

It was denied at Sing Sing that Parks is critically ill. He is working in the brush shop making doormats.

### A DESTRUCTIVE FIRE.

Nine-Tenths of a British Columbia Town Destroyed by a Fire.

Vancouver, B. C., April 23.—Nine-tenths of Fernie, B. C., a town of three thousand population, is in ashes. The fire started in a general store of the town and spread northward, and wiped out practically every business establishment in the city. Very few residences were burned, and there were no casualties. The water supply gave out after a run of half a night, and the fire burned itself out. The loss is estimated at half a million dollars.

## T. & P. Machinists On a Strike

WANT AN INCREASE OF FOUR AND ONE-HALF CENTS AN HOUR.

Struck For a Raise Equal to Wages Paid Galveston & Houston Men and Then Increased Their Demand For Still More.

The Texas & Pacific is now experiencing a strike at the local shops of its machinists. The strike, however, is not very extensive, as only seven machinists are employed, and one of these is the foreman of the shop, who is not affected by the strike and another is on the sick list, leaving only five men who went out.

The men first wanted the scale of the G. H. shops here adopted as a standard and walked out to enforce their demands. Then, after the company agreed to that, they asked for a raise of four and a half cents per hour, making their scale the same as the boiler makers, which the company refused to agree to.

The wage matter has been under advisement for some time but was not brought to a head until yesterday. When the G. H. raised its machinists one cent per hour. About a month ago, the machinists in the employ of the Texas & Pacific at this point waited upon Superintendent E. B. Smith and asked that the scale of wages adopted by the G. H. be also adopted on the Texas & Pacific. At the time Mr. Smith took the matter up with J. W. Addis, superintendent of motive power on the Texas & Pacific system and asked that he do something for the men. At the time it was suggested to Mr. Addis that it would help matters a great deal to put the men on ten hours per day, instead of nine hours as they were then working, which he agreed to and the men were out to work at ten hours per day under the old schedule of 38 cents per hour. At the same time Mr. Addis promised that whatever schedule was adopted by the G. H. would also be adopted on the Texas & Pacific, but before he authorized the increase, Mr. Addis was taken suddenly ill and is now in Mineral Wells for the benefit of his health and is unable to attend to any business whatever.

Yesterday when the time rolls were made out by Foreman A. Rosseter, the machinists and boiler makers both asked if they were given the raise on the April rolls and were told that no instructions had as yet been received to make the increase, but that a statement had been received from the management to the effect that the raise would be made.

The men then waited upon Superintendent Smith to find out what he intended to do in the matter and he immediately wired Master Mechanic Patton of Big Springs, who has charge of this division, and asked for instructions. Mr. Patton took the matter up directly with Vice President and General Manager L. S. Thorne, who up to that time had not been advised of the promise that had been made by Mr. Addis and who wired back for further particulars and in the meantime the men went out on a strike.

After being assured of what the G. H. had done for its boiler makers and machinists he immediately wired back to adopt the same scale of pay, effective May 1. This arrangement proved satisfactory to the boiler makers and they are going ahead with their work. However the machinists now claim that now was the time, while the matter was up, to settle the matter of asking for a raise of four and a half cents per hour, which they had under advisement and they are now holding out for this raise.

They base this claim on what the El Paso-Northeastern is paying the one machinist it has in its employ at this point, who gets the same scale of pay as the Alamosa road shopmen, who, in settlement of the recent trouble there, were given the same amount of pay as the boiler makers on that line.

So far both the company and the men are holding firm and settlement is hardly expected for a few days at the earliest.

### JEWS TO BE BETTER TREATED.

Russian Government to Moderate Anti-Jewish Legislation.

Berlin, April 23.—The Tageblatt today announced from an excellent Russian source that the Russian government is about to moderate its anti-Jewish legislation. The provincial authorities blame the antiquated laws for the social and economic disorders which have involved the whole country, and an commission has been appointed to immediately elaborate a milder legislation and especially to improve the situation of the Jewish proletariat.

To some men the only annoying thing about debt is that they cannot get deeper in.

The bashful man never knows how much trouble he misses on account of that weakness.

## COMMITTEES MEET FOR HEALTH

ENTHUSIASTIC FORMAL MEETING LAST NIGHT OF BOARD OF HEALTH, SANITARY COMMITTEE AND STREET COMMITTEE.

### CLEAN UP IS THE ORDER

County Jail to Be Inspected by Sanitary Committee—Roads and Streets to Be Repaired—Only One Smallpox Case—Orders of Health Officer Are Being Obeyed.

At the fire house last night the Board of Health, the Sanitary Committee and the Street Committee of the City of Bisbee met in a formal meeting to further the plans for cleaning the city.

Health Officer Edmundson reported that the streets of Bisbee were now cleaner than they ever have been. All orders that have been given the people to clean up their premises have been obeyed with but one exception, and that place is now clean, a warrant being necessary to bring about the desired result. Chihuahua Hill is in a bad condition, many of the residents of this portion of the town throwing out all their refuse into the trails and open spaces. It was suggested that notices printed in Spanish be posted on Chihuahua Hill to stop this practice. The Health Officer recommended that part of town be cleaned up at once. A boarding house on the Naco road was reported by the Sanitary Committee to be in a very filthy condition. Dish water and other slops is thrown into the yard and out into the street. The people who run this place were notified three times by the old council to stop this practice. The present Health Officer will visit the place and again give the order to clean up the filth and dig a cess pool. If the order is not obeyed this time arrests and prosecution will follow.

But one case of smallpox was reported, and that is already confined to the pest house. A new nurse has been hired for the pest house, as the first one slept on duty and allowed the patient to escape.

The house on Chihuahua Hill in which the patient was taken ill was given a good cleaning and thoroughly fumigated.

The roads are to be repaired at once, and the Street Committee will hire, or rather instructed the Superintendent to hire, more men to fix the roads and streets fill up chuck holes and take out rocks, and put in boxes for the water crossing the Naco road.

The places to receive first attention will be the road back of the post office, the Naco road and the road by the Catholic church.

The Sanitary Committee reported that there is a heap of old cans and other refuse below the slag dump. The Street Superintendent was instructed to take this rubbish away.

The Sanitary Committee is to visit the county jail on O. K. street and make an investigation of the place. It was reported that the jail is in a very filthy and unhealthy condition and is a danger to public health. The committee will report their findings at the first regular meeting of the Council, and prompt action will be taken to have the jail cleaned or torn down.

The scavenger was ordered to report all persons who have no proper receptacles for garbage to the Health Office, and to report all other breaches of the health ordinances that comes under his notice.

Those present at this enthusiastic meeting, held for the good of Bisbee, were Mayor Taylor, Clerk Hicks, Marshal Snodgrass, Street Superintendent Kreibbaum, Scavenger Glass and Aldermen Ord, Devine, Hogan, Cavin and Health Officer Edmundson.

### MAY ADOPT GOLD STANDARD.

If It Does Not, U. S. to Coin Special Money for Canal Zone.

Panama, April 23.—It seems possible a gold standard will be adopted by Panama. A committee to which the question was referred has reported favorably, after considering among other questions, that the United States will use American currency in the canal zone. As regards the amount, it is recommended that enough money be coined to prevent the U. S. from having a pretext to coin a special currency for the zone. The idea is to coin silver money, using the American gold as the standard, and prohibiting the introduction of foreign silver money.

That which is useless cannot be harmless.

He who will not be a servant cannot be a saint.
